

Wednesday May 27th	3rd Conference Day / LPP Ceremony <i>In what ways can we promote inner peace and peace within, between, and among communities?</i>
8:00-8:45am	Tibetan Meditation by Lama Jigmé Namgyal, Tibet Finding stability in times of changelf we are attentive to our own experience, we will see that everything is constantly changing: this holds true not only for the outer world, including the economic and political realities that shape society but also for our friends and family, and also for our emotions. Although we may not always realize this, sometimes change can be for the best. If we try to artificially stop change, we cause more suffering, because we are resisting the very nature of reality. The point is to learn to influence the causes and conditions that bring about both suffering and happiness, and to find inner stability in the midst of change.
	Music Yoga Zane Leadley & Francesco Cascio, US & Italy Come indulge your senses in this unique yoga offering. Start the day right with the magic of live improvised music and a final meditation that will have you leaving in peace, harmony and clarity. All experience levels are welcome. Yoga mats and a selection of teas and (hot) drinks are provided.
